

HERITAGE TREK

TAKE HISTORY ON THE ROAD

Connecting with the History of Places to
Experience the Past

HERITAGE TREK

WHO WE ARE

Established in 2020, Heritage Trek is a heritage tourism company offering self-guided tours of historic sites (what we call *trekking*) products and services focused on northwest Florida. Our goals are to:

- Improve visitor experiences with the past through observation and, as applicable, interaction with historic and cultural resources.
- Enhance awareness and connections with local history, leading to measurable improvements in the protection and preservation of heritage resources.

WHAT WE DO

We take history off the bookshelf to tell the stories of communities, putting history at your fingertips so you can see where it happened. We believe the creation of meaningful treks is a matter of having the right resources and tools. Our heritage atlases provide the historic background, photographs, trekking maps, and other information needed to experience the past.

Atlas heritage features include homes, cemeteries, churches, schools, stores, mills, Civil War sites, roads, ferries, Indian mounds, and many others. Our atlases make it possible to create unique experiences with local history.
